

Mathematical Excursions

Winter 2009

Introductory lectures in Mathematics aimed at CEGEP students

Once a week, 50-60 minute lecture followed by 30-60 minute discussion and problem solving.
Lectures mostly in English but some in French, discussions bilingual.

Starting January 2009

Details will be announced on the web page.

Possible topics include introduction to number theory, combinatorics, graph theory, topology and geometry, fractals, recreational mathematics (including Rubik's cube), complex numbers, differential equations, probability and statistics, groups and symmetries, functions and set theory.
