MATH 579 - COURSE SURVEY

Name and email:

What is your major and toward which degree are you working (Bachelor/Master/Ph.D.)?

What is the topic of your research, or what would you like to work on?

Do you have a project idea or direction?

What kind of (specific) equation and/or methods would you like to see covered in this course?

What is your favorite programming language (C/C++, Matlab, Fortran . . .)?

How would you rate (from 1 to 10) your level of competency in that language?

In a scale from 1 to 10, 1 being mathematical rigor, and 10 being practical problem solving, where would you like this course to be?
