

Instructions for first-time login to WeBWorK

First go to my WeBWorK page:

<http://gauss.vaniercollege.qc.ca/webwork2/016rags>

Log in with your student number as username and as password. (You will – **you must!** – change your password next!)

The screenshot shows the WeBWorK login interface for user 'rags'. At the top, there is a navigation bar with the WeBWorK logo and the user's name 'webwork / rags'. Below this, the text '016rags' is displayed, followed by the instruction 'Please enter your username and password for rags below.' There are two input fields: 'Username:' and 'Password:'. A red arrow points to the 'Username:' field. A 'Continue' button is located at the bottom of the form.

When you log in you will see a screen with the homework assignments listed. (Usually you will click on the one you want to do.)

But first: change your password and enter your email address. To do this, first click “User Settings”, as indicated in the picture.

The screenshot shows the WeBWorK main menu for user 'seely'. The navigation bar at the top includes the WeBWorK logo, the MAA logo, and the user's name 'webwork / seely'. A 'MAIN MENU' sidebar is on the left, with 'User Settings' highlighted and a red arrow pointing to it. The main content area shows '016rags' and a list of menu items: 'Courses', 'Homework Sets', 'User Settings', and 'Grades'.

You will get the usual sort of dialogue box: just enter your current password (initially your student id), and then your new one (and confirm it). Next enter your email address (there will not be a current one the first time you do this, but if you need to alter your email address, the former one would be displayed, as you see in the picture).

YOU MUST ENTER A VALID EMAIL ADDRESS!! (Speak to me if that’s not possible for some reason, please.)

The screenshot shows the 'User Settings' page for user 'seely'. The navigation bar at the top includes the WeBWorK logo, the MAA logo, and the user's name 'webwork / seely / User Settings'. The 'MAIN MENU' sidebar on the left has 'User Settings' highlighted. The main content area is titled 'User Settings' and contains two sections: 'Change Password' and 'Change Email Address'. In the 'Change Password' section, there are three input fields: 'Robert Seely's Current Password', 'Robert Seely's New Password', and 'Confirm Robert Seely's New Password'. A red arrow points to the 'Robert Seely's New Password' field. In the 'Change Email Address' section, there are two input fields: 'Robert Seely's Current Address' (with the value 'rags@math.mcgill.ca') and 'Robert Seely's New Address'. A red arrow points to the 'Robert Seely's Current Address' field.

Then go back to Homework Sets (click on that phrase), and do the first undone assignment.

Let me know if you have problems. Since you’ve entered your email address, whenever you click “email instructor”, not only will I get your message, but I’ll also know who it came from and be able to reply. (If you don’t enter your email address, I won’t know either, and you might as well not email your question, as you won’t be able to get your answer!)

The screenshot shows the 'Homework Sets' page for user 'seely'. The navigation bar at the top includes the WeBWorK logo, the MAA logo, and the user's name 'webwork / seely'. The 'MAIN MENU' sidebar on the left has 'Homework Sets' highlighted. The main content area is titled '016rags' and contains a table of homework sets. A red arrow points to the 'A-LinGraphs' row.

Homework Sets	
Name	Status
<input type="checkbox"/> A-LinGraphs	will open on 08/22/2016 at 11:59am EDT
<input type="checkbox"/> B-Derivs1	will open on 08/25/2016 at 02:30pm EDT
