The Unofficial Smilie Dictionary

`:-)` Your basic smilie. This smilie is used to inflect a sarcastic or joking statement since we can't hear voice inflection over Unix.
`;-)` Winky smilie. User just made a flirtatious and/or sarcastic remark. More of a "don't hit me for what I just said" smilie.
`:-(` Frowning smilie. User did not like that last statement or is upset or depressed about something.
`:-I` Indifferent smilie. Better than a Frowning smilie but not quite as good as a happy smilie.
`:->` User just made a really biting sarcastic remark. Worse than a `:-)`.
`>:->` User just made a really devilish remark.
`>;->` Winky and devil combined. A very lewd remark was just made.

Those are the basic ones...
Here are some somewhat less common ones:

Midget Smilies
A lot of these can be typed without noses to make
